

Keep it Rolling Protection Plan

2, 3, & 5 Year Coverage Available

Why should I purchase Keep It Rolling coverage?

Riding a bike is all about fun, and the Keep It Rolling Protection Plan will ensure hassle-free enjoyment from day one. Bicycles are an expensive investment, and even one major repair can justify the cost of buying coverage.

Can coverage be transferred if I sell the bike?

Yes the plan may be transferred without charge to you or the new owner along with the original bicycle. Call 1-866-493-6573 for details.

What is NOT covered?

Just like automobiles, your plan will not cover abuse or accidents caused by a third party. Coverage does not include tires, tubes, grips, brake pads, seat fabric, wear and tear, or routine maintenance. See the Plan terms and conditions for a full explanation of the coverages, limitations, and exclusions.

What about the manufacturers' warranty?

The manufacturers' warranty will always take precedence over the Keep It Rolling Protection Plan.

If you have other questions on your coverage, please call: 1-866-493-6573.
